

# COMMUNICATION

The school uses many forms to communicate with students, parents, and the community about general and specific information on what is happening in our school. We utilize our school website, social media, automated communication system, and email.

Communication is very important to ensure the success of all students. By working together, we can rectify problems and enhance your child's education.

Parents are encouraged to:

- call or e-mail the teacher
- check the school website, call the school with any questions and concerns
- track student progress on the Parent Portal for PowerSchool
- follow teacher blogs, emails, Google Classroom which will review objectives and work for every class
- encourage your child to use Google Classroom to find work and supports
- attend or request an interview. There is a scheduled set of interviews that parents can utilize, along with further opportunities for conferences can be set up with the teacher at a mutually convenient time.

When there are concerns regarding students who are experiencing difficulties, all teachers that teach the particular student will meet to discuss the student with a view to getting new insight on the problem and trying a consistent approach (parents may also be involved in these meetings). Often, after these meetings, the counselor or teacher calls parents/ guardians of students having considerable difficulty.
